

Microsoft 365 & Power Platform (Microsoft Speakers) community call

March 21, 2023

Your host in this call:
Vesa Juvonen

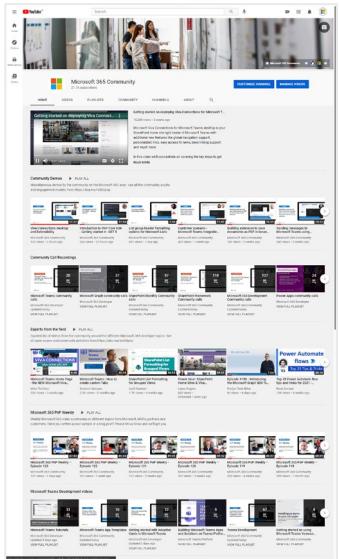

Agenda

- Latest updates and news on the Microsoft 365 platform
- Latest news across the Microsoft blogs
- Group picture time with Together Mode!
- Demos
 - Gary Pretty - Introduction to the Copilot in Power Virtual Agents
 - Tomas Chladek - Additional Azure Communication Services Features
 - Garry Trinder - Teams Toolkit Learn Path - Add chat capability to Microsoft Teams app using Teams JavaScript client library

Sample galleries

The Sample Solution Gallery is a collection of sample solutions for various Microsoft products. It includes:

- Products:** Microsoft Lists, Microsoft Teams, Azure AD, Office, Power Apps, Power Automate, Power Fx, SharePoint, Viva, Microsoft Graph.
- Solutions submitted by Waldok Martynkarcz:**
 - One Productivity Hub
 - SPFx Form customizations
 - Working with provider-hosted Office Add-ins
 - Lead Dashboard 1
 - Review pending SharePoint item
 - Review SharePoint 2019 personal app
- Lead Dashboard:** A sample solution for creating a Microsoft Teams personal app.

SAMPLES

New Microsoft 365 & Power Platform sample gallery with more than **1500+** samples from Microsoft and community

aka.ms/community/samples

The image shows a tablet displaying the Microsoft Community Samples gallery. The screen is split into two main sections. The top section shows a card for 'Sample Solution Gallery / Waldek Mastykarz'. It features a profile picture of Waldek Mastykarz, his name, and a list of his contributions: 'One Productivity Hub powered by SharePoint Framework >' (modified on November 1, 2022), 'SPFx form customizer basics >' (modified on June 21, 2022), and 'Wellbeing days requests and reminder - Adaptive Cards Extensions and Teams personal app >' (modified on March 8, 2022). The bottom section shows a card for 'Sample Solution Gallery / Lead Dashboard'. It features a profile picture of Paolo Pialorsi and Guido Zambarda, their names, and a description: 'This sample shows how to use SPFx to create a Microsoft Teams dashboard personal app.' Below the description is a 'View on GitHub >' button and text indicating 'CLIENT SIDE DEV: React' and 'SPFX VERSION: 1.16.0'.

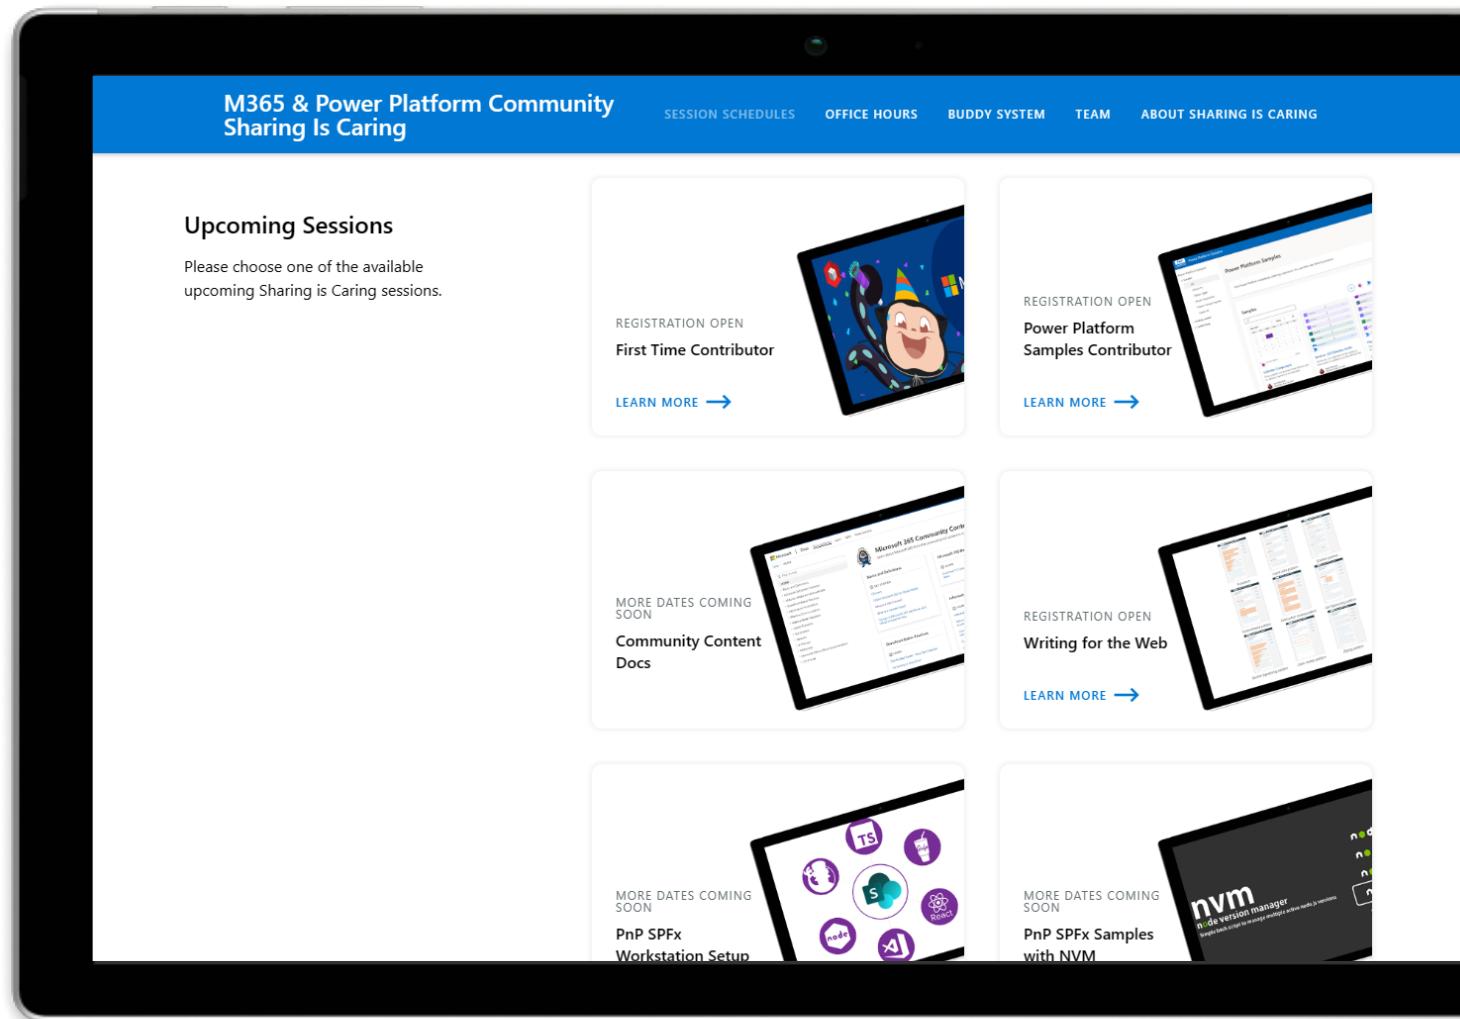

GUIDANCE

Learn how to get started in the open-source PnP community!

Upcoming Sessions:

- General First Time Contributor
- Power Platform Samples Contributor
- Writing for the Web
- SPFx Developer Workstation Setup
- Using PnP SPFx samples w/ NVM
- More than code with VS Code
- First-time presenter
- M365 Maturity Model Practitioners

New Sessions
scheduled for April

Virtual event

Build once, deploy efficiently, connect across Microsoft 365

Discover new ways to amplify your
Teams app's potential

Register today at aka.ms/BuildwithTeams

March 29th, 2023 • 9:00AM PST

The collage illustrates the integration of Microsoft 365 services. It shows a desktop Outlook interface with a 'Contoso' calendar, a Microsoft Teams window displaying a video call with a woman, and a Microsoft 365 dashboard showing a line graph of 'Return Volume' from January to May. A smartphone screen displays a 'Contoso Retail' app with a similar line graph and data points for 'Returns' and 'Inventory'. The overall theme is how Microsoft 365 can be used to build once and deploy efficiently across different business applications.

Month	Returns	Inventory
January	~2,500	~5,500
February	~6,600	~5,500
March	~4,500	~4,500
April	~4,500	~5,500
May	~3,500	~3,500

Bots are available in DOD

A bot is also referred to as a chatbot or conversational bot. It's an app that runs simple and repetitive tasks by users such as customer service or support staff. Everyday use of bots include, bots that provide information about the weather, make dinner reservations, or provide travel information. Interactions with bots can be quick questions and answers or complex conversations.

It's recommended to start with [build your first bot app using JavaScript](#) or [build notification bot with JavaScript](#) by using the new generation development tool for Teams. For more information, see [Teams Toolkit overview](#).

Important

- Bots are available in [Government Community Cloud \(GCC\), GCC-High, and Department of Defense \(DOD\)](#) environments. Bot applications within Microsoft Teams for GCC-High and DOD are available through [Azure bot Service](#) and bot channel registration must be done in Azure Government portal.
- Image URLs in Adaptive Cards aren't supported in GCC-High and DOD environments. You can replace an image URL with Base64 encoded DataUri.

Conversational bots allow users to interact with your web service using text, interactive cards, and task modules.

Docs: aka.ms/TeamsDevDocs > Build bots > [Overview](#)

Message extensions are available in DOD

Message extensions allow the users to interact with your web service through buttons and forms in the Microsoft Teams client. They can search or initiate actions in an external system from the compose message area, the command box, or directly from a message. You can send back the results of that interaction to the Teams client in the form of a richly formatted card.

Important

Message extensions are available in [Government Community Cloud \(GCC\), GCC-High, and Department of Defense \(DOD\)](#) environments.

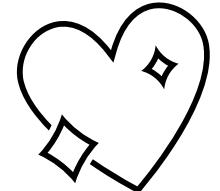

This document gives an overview of the message extension, tasks performed under different scenarios, working of message extension, action and search commands, and link unfurling.

Docs: aka.ms/TeamsDevDocs > Build message extensions > [Overview](#)

Optional picture time!

Video on and we'll grab
a Together Mode pic
with those who are
willing to do this.

We are together on this
as a community!

Let's all be
like Seb

By enabling your camera for the picture, you grant us permission to share your picture in social media.

A photograph showing three people in an office setting. A woman in a light grey sweatshirt and beige pants is pointing towards a whiteboard with her right hand. A man in a black t-shirt and blue jeans stands to her left, looking at the board. Another person, partially visible behind her, is also looking at the board. The whiteboard has some handwritten text and diagrams. In the foreground, the legs and feet of the people are visible.
